TO

Prevent the spread and provide for the treatment of Tuberculosis; and for other purposes connected therewith. A.D. 1908.

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

PART I.

NOTIFICATION AND DISINFECTION.

- 1.—(1) If any medical practitioner attending on any person becomes aware that that person is suffering from tuberculosis of any form, or at any stage, and in any circumstances prescribed by an Order of the Local Government Board under this section, the medical practitioner shall within seven days send to the medical officer of health of the district in which the patient is ordinarily resident a certificate in the prescribed form and containing the prescribed particulars. Notification.
- (2) The Local Government Board, after consulting with the Irish branch of the General Council of Medical Education and Registration of the United Kingdom, shall from time to time by Order prescribe the forms and stages of tuberculosis to which, and the circumstances in which, this section shall apply, but no forms of tuberculosis shall be so prescribed save such as by reason of infective discharges are liable to communicate the disease to other persons.

(3) Any certificate required to be sent to a medical officer of health under this section may be sent either by delivering it to
[Bill 366.] A

that officer, or by leaving it at his office or residence or by sending it by post addressed to him at his office or at his residence.

(4) If any medical practitioner required by this section to send a certificate fails to send the certificate within seven days, he shall be liable on summary conviction to a penalty not exceeding forty shillings.

(5) The sanitary authority shall pay to every medical practitioner for the certificate duly sent by him in relation to a patient in their district a fee of one shilling if the case occurs in an infirmary, public hospital, or workhouse, and a fee of two shillings and sixpence if the case occurs elsewhere, but only one notification fee shall be paid by the local authority in respect of the same patient.

Where the medical practitioner required by this section to send a certificate is himself the medical officer of health of the district, he shall be entitled to the fee to which he would be entitled if he were not such medical officer.

(6) A payment made to any medical practitioner in pursuance of this section shall not disqualify the practitioner from serving as a member of any county or district council or as a guardian of any union.

(7) The Local Government Board shall make regulations for carrying into effect the provisions of this section, and such regulations shall, among other matters, prescribe the form of certificate to be sent under this section and the particulars to be inserted therein, and shall provide for the proper custody of all certificates, and for securing that, so far as is, in the opinion of the Board, consistent with the public advantage, no publicity shall be given to any of the particulars contained in any such certificate, and that the certificate shall be cancelled if and when it appears to the medical officer of health that the person to whom it relates has been cured of the disease.

The sanitary authority shall gratuitously supply forms of certificate to any medical practitioner residing or practising in their district who applies for the same.

(8) In this section the expression "medical officer of health of the district" means—

(a) as respects any district for which there is a medical superintendent officer of health, that officer; and

(b) elsewhere, the medical officer of health of the dispensary district.

2. Section one hundred and thirty-nine of the Public Health (Ireland) Act, 1878 (relative to the provision of means of disinfection), and section five (which relates to the cleansing and disinfecting of premises), section six (which relates to the disinfection of bedding), section sixteen (which relates to penalties), and section seventeen (which relates to power of entry) of the Infectious Disease (Prevention) Act, 1890, shall apply with the necessary modifications in every case where tuberculosis is notifiable under this Act as regards any premises, bedding, clothing or articles exposed to or likely to retain infection, in like manner as if tuberculosis were an infectious disease to which those Acts apply, and the provisions of the said sections of the last-mentioned Act as so applied shall extend to every sanitary district in Ireland, whether those sections are adopted by the sanitary authority or not, provided that where the sanitary authority does not adopt those sections the provisions thereof shall apply in relation to tuberculosis only.
